AVOSEH RASAQ SEIDO

ADDRESS: GORO, ERE, ADO-ODO/OTA, OGUN STATE.

EMAIL: avosehrasaqseido@gmail.com CONTACT NUMBER: 09024724718

PROFILE: I am Electronics and Computer Engineering student with practical experience in backend web development, embedded systems, and technical problem-solving. Skilled in Python, Django,Git, and database management. Currently developing an IT Logbook Management System featuring authentication, role-based access, supervisor approvals, and administrative dashboards. Passionate about building scalable applications and continuously improving software engineering skills.

SKILLS:

- Python Programming
- Django Web Development
- Task Coordination and Problem Solving
- Circuit Analysis & Soldering
- Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Technical Documentation
- Electrical Installation (Bulbs, Sockets, Fans, Wiring)

EXPERIENCE:

INDUSTRIAL TRAINING (IT)

LASU Physics Laboratory | 2026

- Assisted in laboratory operations and equipment maintenance.
- Supported practical sessions and technical documentation.
- Participated in troubleshooting and calibration of laboratory equipment.

IT Logbook Management System (Ongoing)

- Developing a web-based logbook platform for students, supervisors, and administrators.
- Implemented user authentication and role-based access control.
- Built daily log submission and approval workflow.
- Developed administrative dashboard and record management features.
- Integrated search and CRUD functionalities.

STUDENT WORK EXPERIENCE PROGRAM (SWEP II)

LASU, Epe Campus Department of Works

Electrical Installation and Mini Hardware Project

• Installed and tested lamp holders, bulb fittings, power sockets, and ceiling fans.

• Performed wiring layout planning, connection tightening, safety checks, and continuity tests.

• Built a 5V rechargeable lamp system using a lithium battery pack, charging module, LED beads, and USB input.

• Participated in fault diagnosis, replacing burnt components, and fixing connection errors.

• Gained exposure to maintenance operations and engineering safety procedures.

Daily Notes Web App — Django (Personal Project)

Developed a simple web app for recording daily activities with timestamps, search, and CRUD features.

STUDENT WORK EXPERIENCE PROGRAM (SWEP I)

Electronic and Computer Engineering (ECE) Laboratory

Bluetooth-Controlled Car

• Built a remote-controlled Bluetooth robotic car using Arduino, HC-05 module, L298N motor driver, and DC motors.

• Assisted in circuit wiring, control logic, and microcontroller programming.

• Practiced troubleshooting motor polarity, power supply issues, and wireless communication

---

EDUCATION

LAGOS STATE UNIVERSITY (LASU), EPE CAMPUS **2023-PRESENT**

B.Eng – Electronics and Computer Engineering

TOYON HIGH SCHOOL, ERE, ADO-ODO OTA OGUN STATE **2015-2021**

West African Senior Secondary Certificate Examination (WASSCE)

HOBBIES	Electronics tinkering, Coding small application,Reading ,Football, Washing videos.

LEADERSHIP	**General Secretary, Ogu Students' Community.** Coordinates communication, documentation, and membership organization. **. MSSN 25/26 Academics Committee Tutor(LASU-EPE)** Tutorial Volunteer — MSSN (Muslim Students' Society of Nigeria) I provide academic support to and tutorialsessions for engineering students •**Publicity Secretary, Explicit Online Tutorial** Manages communication and publicity materials.

REFERENCES	**Dr Emmanuel Jesuyon Dansu** **Asst. Professor,Tohoku University,Sendai,Japan.** **Contact: 08069022177** **RELATIONSHIP:MENTOR**
